

Evolve your IT to deliver business value through resilience and agility

The need to evolve your business technology has never been greater. As the world goes through change at an unprecedented rate, organizations must rethink their expectations from managed services and demand more from their provider.

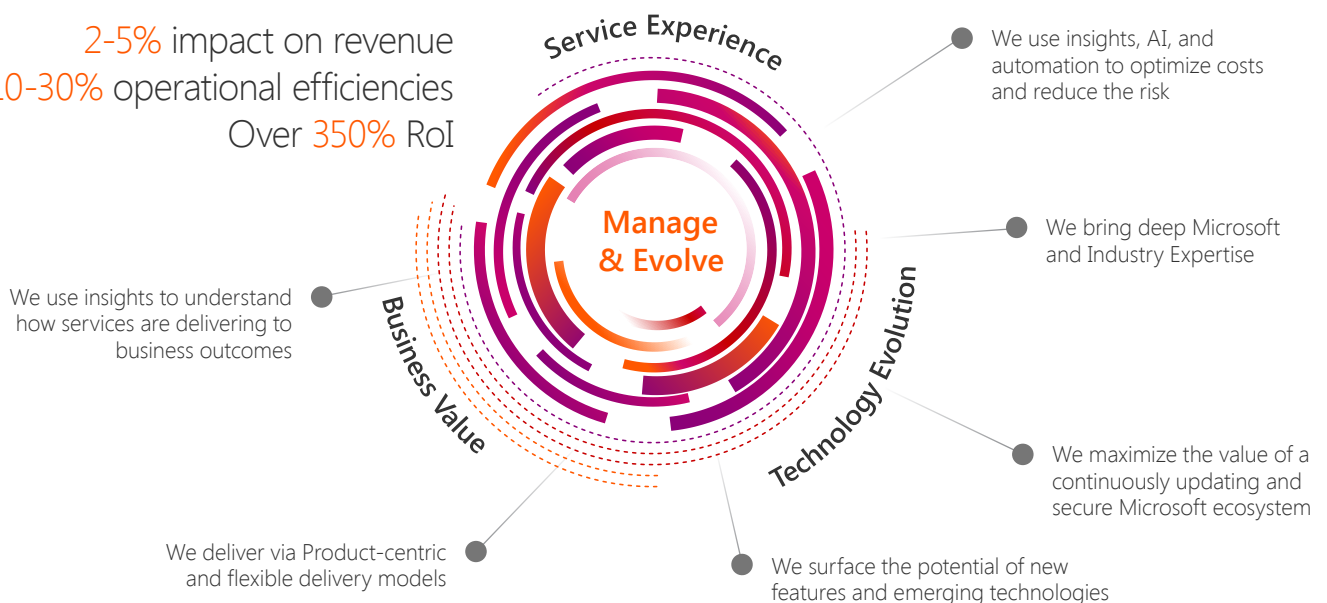

Avanade delivers outcomes that drive continual business value. We manage and evolve your technology platforms, bring business and IT together and provide on demand access to skills. Embrace a world of continual change by taking advantage of the latest technology innovations faster and accelerating your digital maturity to build resilience and agility.

Manage and Evolve

Avanade's managed services help clients to not only manage, but also evolve their technology platforms and products to enable continual business value through a managed service.

We bring together your service experience, business value and technology evolution

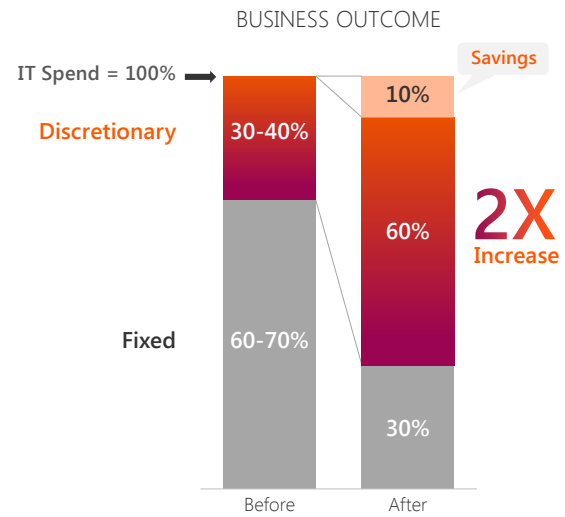

2-5% impact on revenue
10-30% operational efficiencies
Over 350% RoI

Manage and Evolve is an innovation multiplier

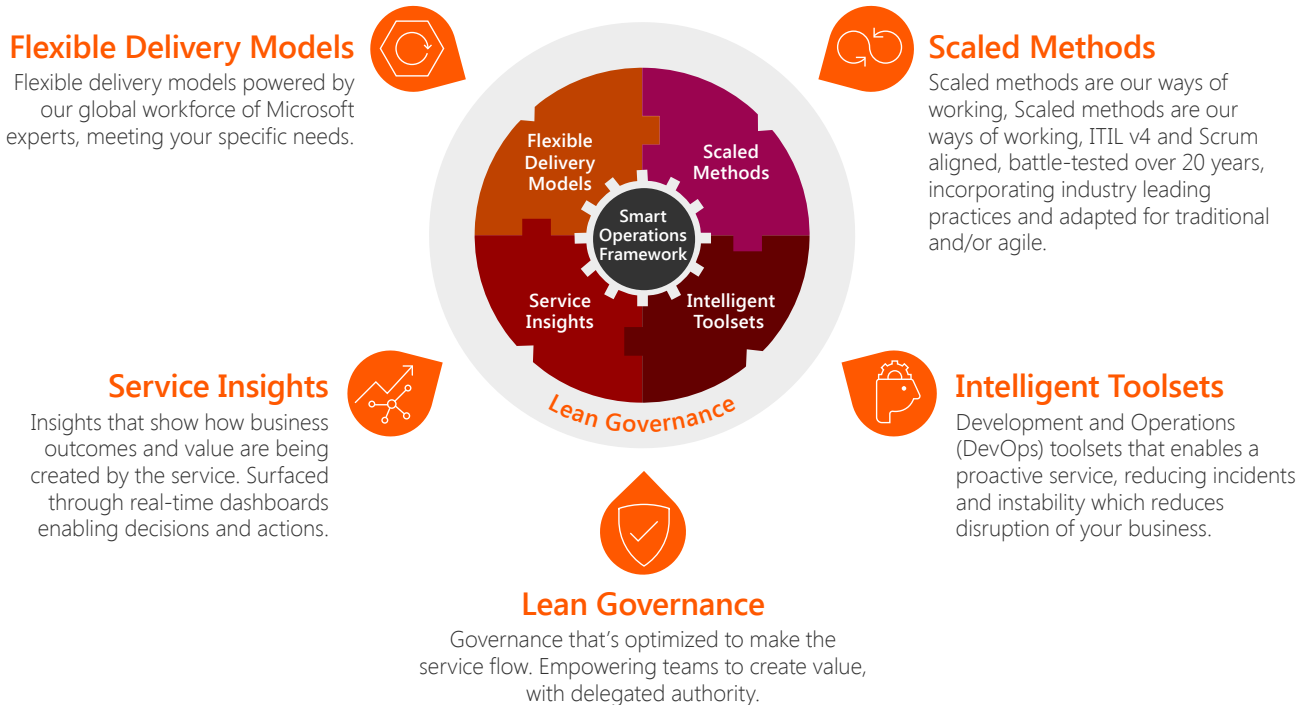

Manage & Evolve embodies a different approach, minimizing operational efforts while improving resilience and agility to deliver continuous value at the velocity the business requires.

By optimizing the management and efficiency of your IT estate, we help you to free up capacity and resources for higher value activities.

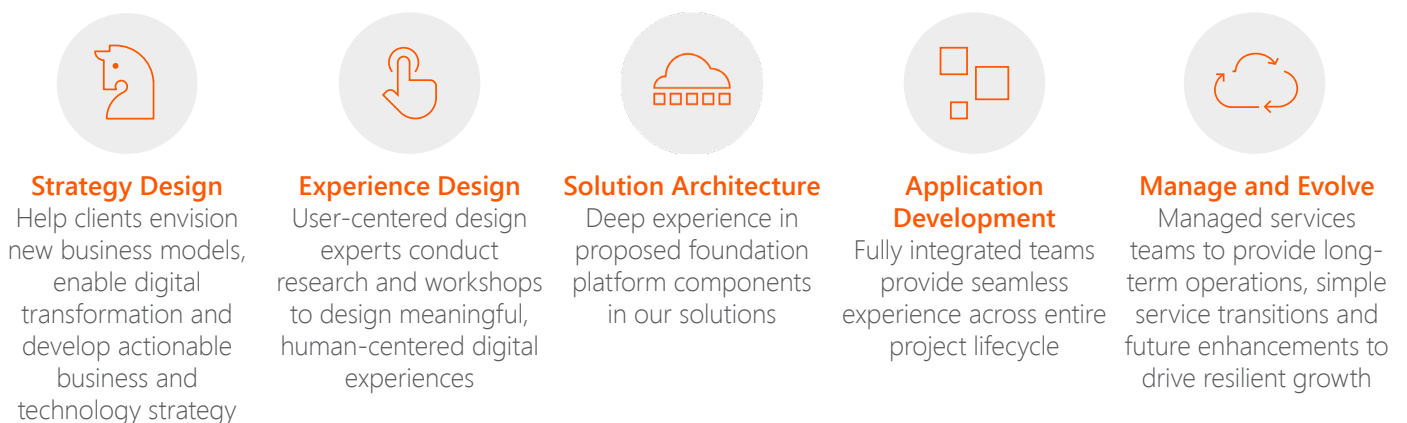

Smart Operations Framework

The smart operations framework helps you to understand how our services impact your business outcomes. Comprised of the operational and technology blueprints that form your service, the Smart Operations framework underpins Manage and Evolve.
