

Avanade® Collaboration Services

Avanade Collaboration Migration

Choose
the route
to success

Streamline collaboration in the cloud

The Avanade Collaboration Migration solution offers a holistic approach to migrating your content. From strategy insights to application delivery to ongoing maintenance, we help you maximize the value of the Microsoft Office 365 cloud computing platform.

Accomplish your business goals with Avanade assets

- Make an informed decision about whether to deliver your SharePoint collaboration services from the cloud, on-premises or through a hybrid model using the Office 365 Assessment tool.
- Develop a migration roadmap that provides change management, strategy, governance processes and tools to align your collaboration investments with your business goals.
- Extract more value from your SharePoint Online platform with our Collaboration Center of Excellence, which offers assets, accelerators and capabilities to help you expand the use of collaboration technologies.
- Increase the predictability of your collaboration implementation timeframes, expenditures and functionality with Avanade Cloud Deployment Assets and Guidelines.

Smoothly transition business processes

Depend on Avanade field-tested assets to easily guide you through the migration process. We begin with the Avanade Decision Framework for Platform Selection and then use the Capability Assessment Tool and Avanade Cloud Deployment Assets and Guidelines. We complete the process with our SharePoint 2010 Migration Kit, which efficiently and securely migrates your data to the desired destination.

Count on our capabilities

You can proceed with confidence knowing that Avanade is #1 in the Microsoft SharePoint Online ecosystem, as measured by customers that we've assisted in their transition to the cloud. Accenture and Avanade have the most certifications of all enterprise partners in Implementation and Application Development with Microsoft SharePoint technologies.* We have supported implementation of 2M+ seats, more than any other partner.

Microsoft has solid ties with Avanade

"Avanade has repeatedly demonstrated its ability to seamlessly move organizations to Microsoft's cloud services and help its enterprise customers achieve the maximum value from their collaboration investments."

— **Reid Downey**
General Manager, Worldwide Office365 Sales and Worldwide Enterprise & Partner Group, Microsoft Corporation

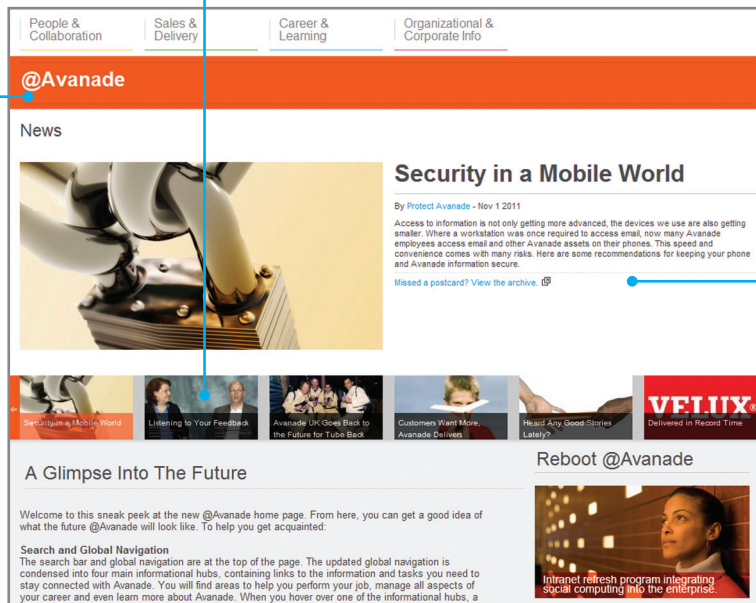

Increase adoption with a great user experience

Provide collaboration capabilities to your workforces using easily managed websites and applications that require less IT supervision.

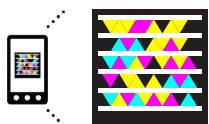

The Avanade Experience Design team delivers practical and beautiful websites. Our global team of experienced design consultants and studio-based designers provides creative user interfaces and user experience design.

Leadership portals include blogs and tags that enhance the opportunity to share knowledge and experience.

Our easy-to-use portals are designed for a collaboration platform to enable you to quickly access the information you need.
