Deployment Models

From full enterprise deployment to integrating with your corporate systems of record, Avanade offers a flexible deployment approach and expertise to support your unique operational and business requirements.

Enterprise

End-to-end solution that manages the financials and core operations for a company

2-Tier Subsidiary

Solution that manages the financials and operations for subsidiaries or business units and integrates with the headquarters ERP

Operational Workloads

Manages specific business functions/workloads of a business and integrates with corporate systems

Cloud Your Way

Every journey to the cloud is different and Avanade and Microsoft want to support all of them. The notion of cloud first should be fully enabled across both cloud and on premise environments for a true hybrid cloud that leverages the best of both worlds.

Cloud

The Best of Public & Private Cloud

- Scale
- Self Serve
- Sovereignty
- Compliance
- Trust Center
- Microsoft Managed

Hybrid

The Best of Cloud & On-Premises

- Business Continuity
- Processing
- Data Residency
- Intelligence and IOT
- Big Audiences, Big Data

Subject to Microsoft Roadmap confirmation
