

 **avanade** *and Microsoft Teams*

The Unified Communications workplace continues to evolve rapidly. The Microsoft Skype for Business platform has proven the benefits of software-based communications for all types of organizations, and now Teams promises to transform Unified Communications and Collaboration with Intelligent Communications into a digital workplace. As a leading Microsoft Global UC partner, Avanade can help you manage these workload shifts and define your own cloud roadmap so that your business users can continue collaborating and innovating at cloud pace.

**Our 1 or 3-Day Microsoft Teams Adoption workshop provides:**

- An in-depth look at Teams and how it can help your employees work together more effectively
- Dialogue on how Teams can broaden your Intelligent Communications journey
- A point of view based on Avanade's experience driving modern digital workplace

# Microsoft Teams Adoption Workshop Presented By Avanade Inc. **avanade**

# Why This Workshop From Avanade?

## Team Communication Matters

The Unified Communications workplace continues to evolve rapidly. The Microsoft Skype for Business platform has proven the benefits of software-based communications for all types of organizations, and now Teams promises to transform Unified Communications and Collaboration with Intelligent Communications into a digital workplace.
