

# Do you have the right pieces to grow your business at cloud speed?

Avanade can help identify your path forward in these highly interactive workshops

## You can use the cloud to transform your business, grow faster and reinvent productivity, while increasing agility — but only if you do it **right**.

To complete your cloud picture, you need to consider how your new cloud services will integrate with your existing business processes. You need to identify applications that are ready to move to cloud and those needing to be re-engineered. It's also important that you determine which workloads are right for public cloud; you may find some are not a good fit.

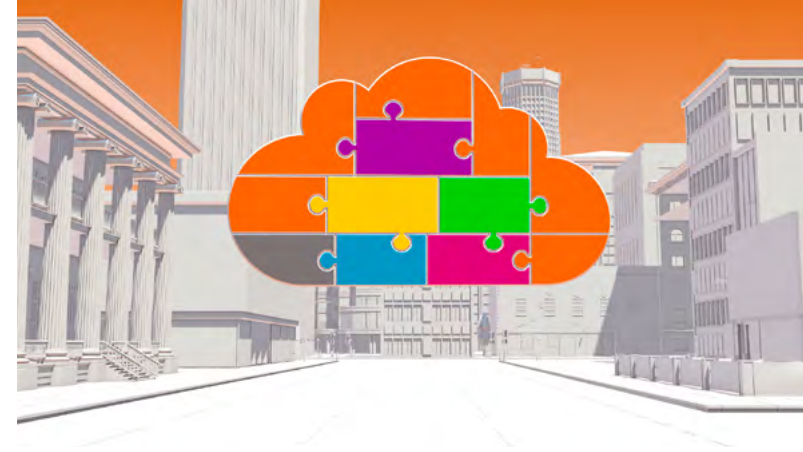

Moving to the cloud isn't as easy as it seems. That's why Avanade is offering you our one-on-one **KickStart Workshops** — where your core stakeholders and Avanade experts participate in highly interactive planning sessions discussing the benefits of cloud and the best approaches to take succeed with cloud. Choose from **Avanade Services for Office 365** or **Avanade Cloud Application Development for Microsoft Azure** workshops which are aligned to your specific cloud vision, based on your business objectives and setting a foundation for your overall business cloud strategy.

*These workshops promote an understanding of cloud benefits and put you on a path for improved agility, faster time to value and enhanced collaboration. Together with Avanade, you will identify your move to cloud goals, objectives and key priorities.*

# Avanade Cloud Workshops

How will these workshops change the way you do business? What to expect — the three pillars for success.

## Align and energize your stakeholders on a cloud vision

- Integrate your stakeholders and enable your organization's groups, departments or global locations to more effectively collaborate and make decisions
- Gain an understanding of how to make cloud work for your organization and how Avanade can help
- Identify opportunities, challenges and set priorities around your move to cloud

## Set a foundation for your cloud strategy

- Identify where you are on your cloud journey
- Understand the benefits of Office 365 and/or Microsoft Azure
- Determine the best migration and support for your business needs
- Develop a cloud strategy and/or roadmap to help you move to cloud
- Document your key priorities

## Understand the steps in your journey to the cloud

- Realize how the cloud environment can deliver immediate value for your organization
- What a cloud first strategy means for your application development efforts
- Determine if you have the right pieces and whether you are assembling them in a way that helps transform your business
- Assess how you can boost your current cloud investment ROI
- Learn about Avanade's expertise and how we can help you put it all together — faster and with less risk

# Avanade Cloud Workshops

## Four workshops — one vision.

Avanade offers personalized Cloud Kickstart Workshops that are customized around your specific business goals and objectives. Each workshop is aligned to either Office 365 or Microsoft Azure focus — and are available in two-hour or half day sessions, held at your business location.

### Avanade Services for Office 365 Kickstart Workshop additional potential deliverables:

- Determine your present state and migration paths to Office 365
- Identify potential roadblocks in moving to Office 365

### Avanade Cloud Application Development for Microsoft Azure Kickstart Workshops additional potential deliverables:

- Discuss necessary steps to evaluate and develop an application roadmap to quickly realize the value of Azure
- Evaluate your application migration progress and the benefits of Azure
