

Avanade® Managed Services™ Solution

Application Renewal for Microsoft® Visual Basic® 6.0

Increase your agility

Reduce your costs—and innovate

Transition your Microsoft Visual Basic 6.0 applications to the Microsoft .NET platform to optimize your portfolio of IT assets, enhance your software lifecycle strategy, and ensure continued support for the applications on which your business depends.

We offer proven experience for the right results.

- Avanade can help you reduce your development efforts, accelerate time-to-market, and mitigate the risks of .NET adoption.
- Experts at our Visual Basic Application Renewal Center of Excellence use proven Avanade tools, assets, and methodologies to accelerate enterprise application development and deliver consistently high-quality solutions.
- Design patterns and guidelines suited to your implementation help ensure that the solution you receive is the right solution for your business.

From Accenture and Microsoft

Avanade® Managed Services™ Solution

Application Renewal for Microsoft® Visual Basic® 6.0

An expert team for a seamless transition

Avanade has created a fully dedicated Visual Basic Application Renewal Center of Excellence to help you make the best decisions about your VB6 applications. With our extensive training and experience in VB6 and ASP renewals, we will guide and support your projects through each step of the application renewal lifecycle, from pre-sales support through final project delivery to ensure a high-quality, on-time solution for your business.

Avanade experts can provide the guidance you need to take full advantage of innovations that increase IT and business agility, giving your organization a strategic advantage. Our team of dedicated application renewal specialists has the experience, tools, and methodologies to ease your transition to .NET.

A solution driven by your needs

To address your unique situation, Avanade begins every application renewal project with a comprehensive assessment of the business and technology needs that drive your organization including current and future technical support needs, quality and performance of existing applications, user satisfaction and untapped IT resources.

We will work closely with you to determine the business drivers and objectives of your application renewal. This may involve migrating, rewriting, restructuring, or replacing your applications, depending on your business needs. Our experts will collaborate with you throughout the renewal process to provide staffing, specialized issue-based support, and governance for critical engagements.

Reduce risk, increase efficiency

Do you rely on applications created in Microsoft Visual Basic 6.0 (VB6)? If so, you are now at a crossroads because Microsoft support for VB6 is coming to an end, and Microsoft .NET is now the development environment of choice. As you decide what to do with your VB6 applications—whether you plan to migrate, rewrite, restructure, or replace—Avanade Application Renewal for Microsoft Visual Basic 6.0 comprises innovative tools, assets, and methodologies that help to analyze VB6 code and transition it smoothly to .NET.
