PURPOSE OF THIS POLICY

The purpose of this policy is to state the Company's position and provide accessibility guidelines specific to Canada regarding persons with a disability. The impetus for this policy was the promulgation of the *Accessibility for Ontarians with Disabilities Act* ("AODA").

POLICY

The Company is committed to providing an inclusive environment for all employees, contractors, vendors, clients and customers who are affected by a disability, and to treating all individuals in a way that allows them to maintain their dignity and independence, as evidenced by our *Respect in Action*, *Workplace Harassment Awareness*, and *AODA* accessibility initiatives. We believe in integration and equal opportunity. We are committed to meeting the needs of individuals with disabilities in a timely manner, and will do so by preventing and removing barriers to accessibility and meeting accessibility requirements under the *Accessibility for Ontarians with Disabilities Act, 2005* and its Regulations.

The term "disability" is defined under the AODA and Ontario *Human Rights Code* as:

- Any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical co-ordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a guide dog or other animal or reliance on a wheelchair or other remedial appliance or device,
- A condition of mental impairment or a developmental disability
- A learning disability, or a dysfunction in one or more of the processes involved in understanding or using symbols or spoken language,
- A *mental disorder*, or
- An injury or disability for which benefits have been claimed under a provincial workplace insurance act.

Customer Service Standard (“CSS”) of AODA

The Company will ensure that its business practices, processes and procedures are consistent with the following principles:

- The goods or services must be provided in a manner that respects the dignity and independence of persons with disabilities.
- The provision of goods or services to persons with disabilities and others must be integrated unless an alternate measure is necessary, whether temporarily or on a permanent basis, to enable a person with a disability to obtain, use or benefit from the goods or services.
- Persons with disabilities must be given an opportunity equal to that given to others to obtain, use and benefit from the goods or services.

All employees and other individuals providing services on the Company's behalf are expected to communicate with people with disabilities in ways that take into account their disability.

The Company will ensure that its employees are familiar with the various assistive devices the Company has on site or that it provides that may be used by clients with disabilities while accessing the Company's goods or services.

Clients are also welcome to use assistive devices on the Company's premises. **Contact** Avanade Canada's HR department, if you require assistance with this communication, at hrcanada@avanade.onmicrosoft.com

- How to use assistive devices available on the Company's premises or otherwise provided by the Company which may help in providing goods or services to people with disabilities
- What to do if a person with a disability is having difficulty in accessing The Company's goods and services

Training will be provided to each person as soon as practicable after he or she is assigned the applicable duties, and on an ongoing basis in connection with changes to policies, practices and procedures governing the provision of goods or services to persons with disabilities. The Company will keep records of training provided, including dates and the number of people trained. Tools and assistive devices will be made available to individuals as needed. These can be found in the Supporting Documentation Section below. The Company will ensure that all other individuals who deal with members of the public or other third parties on the Company's behalf also receive training as required by the CSS. Training is provided via the company Learning Management System (LMS), which can be accessed with or without an Avanade email ID. Completion of training is recorded in the LMS tool for date of completion. Automated reminders from the LMS tool are sent to all employees and contractors assigned to Avanade Canada with outstanding training to be completed

The Company will notify the public that its policies and documents required under the CSS are available upon request.
